PERSONAL STATEMENT

Over the past three months I have worked towards a deeper understanding of web development and design. When I am not doing university work, I am working as a web designer and developer and a freelance journalist.

SELECTED PREVIOUS WORK EXPERIENCE

University student helper

Journalist

Agency web developer & designer

Freelance web developer & designer

SKILLS

HTML, CSS(Sass), JavaScript, jQuery, PHP

Photoshop, Illustrator and related design-software

Photography and editing

FUTURE

For future opportunities, I am working to get as much work experience as possible. I want to explore Node.js as opposed to PHP, as well as the role of a UX designer. I'm also interested in young technology like VR headsets and wearable technlology like the MYO Armband.
